repetition in Planet Mappers could negatively impact its readability and contribute to its lesser success compared to The Time Machine.

Word Distribution for Each Chapter the books shown Below: In "Planet Mappers,"

the top words are repeated across all chapters, indicating less variation and a focus on family-related terms. In contrast, "The Time Machine" features a wider variety of words, with scientific terms that vary by chapter. This greater lexical diversity in "The Time Machine" could enhance reader engagement and contribute to its success, while the repetition in "Planet Mappers" might negatively affect its reception.

Sentiment Analysis

Sentiment analysis allows us to interpret the words in a text as positive or negative, using standard lexicons to characterize individual words. Given the themes of teamwork and discovery in "Planet Mappers," we expect it to have more positive

I will conduct a sentence-level sentiment analysis to uncover the underlying emotions beyond just positive and negative sentiments. This deeper analysis will help us understand the nuanced emotional landscape of each book and its impact on reader engagement.

Conclusion
